November 19, 1996

TO: Minerals File

FROM: Lynn Kunzler, Reclamation Specialist 

RE: Site Inspection, Ron Farnsworth, ML 45726 Project, S/039/005, Sanpete County, Utah

Date of Inspection: September 10, 1996
Time of Inspection: 6:30 p.m.
Conditions: Windy, cool, cloudy
Participants: Lynn Kunzler, DOGM

Purpose of Inspection: To inspect the site to determine if this site can be closed

Mr. Farnsworth has requested that this file be closed. In checking over the site, there is one spot where it looks like he had a little bank pushed in order to load the loader on a flatbed, the little bit of disturbance was regraded. There is an area about 150 sq. ft. that has a few weeds on; otherwise, the vegetation here looks like the surrounding vegetation. This site can be released. A phone call was made to SITLA 11/19/96 and they concurred with release of this site.
